Flexx Handlebar System Release Form

Process Overview

Flexx Handlebars System pivot points need to be routinely cleaned and lubed to maintain consistent performance.

If you would like us to service your Flexx Handlebar System we require you to do the following:

- 1) OBTAIN an RA# from us as by calling 562-601-8119 or email information@fasstco.com
- 2) Read, print and sign this release form.
- 3) Ship us your bars with the RA# and signed release form.

Maintenance Services Provided

For a fee of \$50* +shipping, we will clean and lube your pivot points, as well as install new o-rings, clips, bolts, elastomers, and nuts. Please call or email us for an RA#.

Please note that this is only a clean and lube job, in no way does this make your handlebar stronger, last longer or take away any prior damage/neglect. If your Flexx Handlebar is damaged in anyway we will inform you of the damage and what your options are. We will not return damaged handlebars to you as it is a safety concern and liability to yourself.

* If your pivot pins are damaged they will need to be replaced. A Pivot Pin kit is an additional \$20.

* Customer is responsible for all shipping charges to and from Fasst Company.

Agreement

I, , understand that the service work Fasst Company performs on my Flexx Handlebar System is only routine maintenance which is lubing the pivot points. In no way does this service make the handlebar stronger or take away any prior damage or neglect. If my handlebar is damaged I, , understand that Fasst Company will not return the bar to me as it is a safety concern.
